Your Trustworthy Partner for Container Houses Solutions

Innovative | Quality | Cooperation

Company Profile

dedicated company specializing in the development and production of container houses with over 12 years experience. Our operations are based on a 50,000-square-meter facility equipped with more than 100 production units. We have 20 engineers and a workforce of over 100 skilled production workers. Over the past three years, we have consistently achieved annual sales exceeding 100 million yuan. Our company has always considered providing comfortable, economical and practical housing for people as our mission.

Our Commitment

Customer satisfaction is at the heart of our business. We continually improve and refine our products and services to meet your needs and create value for you.

Competitive Price

As a mature integrated manufacturing and trading company, we have the capability to provide competitive prices without compromising on quality.

Design and Consultation

With a highly experienced design team of 20 professionals, each with an average of over 12 years of industry expertise, we offer innovative architectural design solutions to help you realize your ideal building projects.

Manufacturing Excellence

We operate with advanced production equipment and a rigorous quality control system, ensuring high-quality products and the ability to meet your customization requirements.

Certifications

Why choose container houses?

Cost-Effective

More affordable than traditional construction.

Quick Construction

Built much faster than conventional buildings, saving time and labor costs.

Eco-Friendly

using recycling old shipping containers, a sustainable and environmentally friendly practice.

Mobility

easy to be relocated, suitable for temporary or mobile housing solutions.

Versatility

can be applied to wide range of purposes, from homes to offices, construction site, hotels, and even schools.

Built with durable sandwich panels, our structures thrive in all weather, offering long-lasting reliability
